WHAT IS NITE PAINTBALL?

Splat Attack's Nite Paintball adds a whole new layer of strategy and exhilaration to the paintball experience.

Games are played in the dark, with just enough artificial light for you to see your surroundings. Each player is equipped with our unique Nite Paintball Markers, which fire special Glow-in-the-Dark paintballs that glow brightly as they travel through the air and when they strike an opponent.

Stealth plays a much bigger role when your visibility is limited - you can never be sure where your opponents are, but you will definitely see their paintballs flying through the air!

When you look out from your hiding spot and witness dozens of glowing paintballs whizzing through the darkness in your direction, you'll know what makes Nite Paintball such an unforgettable experience.

WHO CAN PLAY?

Nite Paintball, as in regular paintball, can be played by anyone over the legal playing age...

Nite Paintball Echuca-Moama - 16+

Over the years, Splat Attack has been visited by thousands of players, both male and female, of all ages.

WHERE CAN I PLAY NITE PAINTBALL?

Splat Attack Paintball has one great location, fully equipped for the Nite Paintball experience...

1 NITE PAINTBALL ECHUCA-MOAMA

Located just a short 2hr drive from Melbourne, on the Mighty Murray River, Splat Attack Echuca-Moama is one of Australia's biggest and best outdoor paintball venues.

Over two dozen different themed playing fields, on-field break areas, paintball vending machines and a host of other unique features make Echuca-Moama a great place for a holiday or even just a weekend getaway.
